

SAN DIEGO STATE
UNIVERSITY

2011 Internship Program

FPA San Diego and San Diego State University are coordinating an internship program for SDSU business school students.

➤ **Goals for FPA SD members:**

Find great young talent and give back to the profession by hiring and mentoring an intern.

➤ **Goals for SDSU Students:**

Gain valuable work experience in the field of financial planning.

➤ **Program Outline:**

For 2011, we've made searching for and hiring an intern easier than ever, with flexible interviewing and hiring. Students post their resumes and profiles on a dedicated website, and FPA SD members are given access to the resumes and profiles of all the 2011 internship candidates.

FPA members and students can interview, negotiate, and begin internships directly, without approval from FPA SD or SDSU. The length of the internship, pay, start date and schedule are up to the member and the student to negotiate.

➤ **Guidelines, Forms, Resources:**

Members and students must both complete an application in order to participate. Guidelines for internship duties are also available. FPA SD's Internship Task Force is available to provide advice and best practices to members on administering their internship.

➤ **How to Find out More:**

FPA SD members: If you are interested in participating, or just to find out more about the program, please reply to Jon Beyrer at beyrer@bfadvisers.com. There's no obligation.

SDSU Business Students: Please contact Jas Arandia, president of the SDSU FPA chapter, at jas_arandia@hotmail.com
